Administrative Order NSL-2662

Dear Mr. Sanders:

Reference is made to your applications of May 25, 1989 for two non-standard oil well locations to be included within an existing 40-acre standard oil spacing and proration unit comprising the SE/4 SW/4 (Unit N) of Section 35, Township 17 South, Range 34 East, NMPM, Vacuum Grayburg-San Andres Pool, Phillips Hale-Mable Vacuum Grayburg San Andres Pressure Maintenance Project Area, Lea County, New Mexico.

It is my understanding that the following described wells are necessary to complete an efficient production/injection pattern within said secondary recovery project:

M.E. Hale Well No. 20 to be located 1090 feet from the South line and 1870 feet from the West line; and,

M.E. Hale Well No. 22 to be located 650 feet from the South line and 2630 feet from the West line.
