13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Concho Oil & Gas respectfully requests approval to downhole commingle production from the Yates and Queen pools in the Sun Pearl Federal No. 4 well.

The Sun Pearl Federal No. 4 well was originally drilled and completed by Manzano Oil Corp in December 1990. The original completion was in the Queen pool and production commenced in December 1990. Manzano recompleated the well in August of 1994 to the Yates pool and did not report this recompleat to the BLM. In November of 1994 Manzano commingled the two zones without prior approval from the BLM as follows:

11/15/94 TIH & POOH w/ RBP. Producing from Queen & Yates pools.

Concho Oil & Gas Corp. wishes to file the paperwork in order to receive proper commingling approval for this well.

14. I hereby certify that the foregoing is true and correct
