13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Mitchell requests a variance to not run a Gamma Ray/Neutron log from the base of the salt to the surface on this well. The Geronimo Federal No. 7 is located 75' away from our Geronimo Federal No. 2 well on which we do have open hole log information. We will run a cased hole neutron log on the No. 7 well.
