RE: Letter dated August 30, 1996 (attached) requesting  
Administrative Approval of Non-Standard Location  
**Burrows 17 Lease, Well #1**  
870' FNL & 1180' FEL, Section 17, T17S, R38E  
Lea County, New Mexico

Dear Sir:

Maralo, Inc. has revised the surface location footage for the Burrows 17 lease, Well #1. The adjusted measurement, 870' FNL & 1180' FEL, remains a non-standard location. A corrected copy of the application for Permit to Drill (Form C-101), Acreage Dedication Plat (Form C-102), Location Verification and Vicinity Maps are enclosed in duplicate.

We would appreciate prompt administrative approval due to immediate drilling rig availability.

Sincerely,

A handwritten signature in cursive script, appearing to read "Dorothea Logan".

RE: Application for Administrative Approval of Non-Standard  
Location on Burrows 17 Lease, Well #1  
800' FNL & 1300' FEL, Section 17, T17S, R38E  
Lea County, New Mexico

Dear Sir:

Maralo, Inc., hereby requests administrative approval for an exception to Rule G-104(B)(1) Exploration Well on the Burrows 17, Well #1. This non-standard location is based upon the geologic considerations of structural positioning and quality of seismic data.

A copy of the geologic exhibit, Application for Permit to Drill (Form C-101), Acreage Dedication Plat (Form C-102), Location Verification and Vicinity Maps are enclosed.

There are no other owners within the 990-foot radius of the proposed location. If you have any question regarding this request, please contact Richard Gill, Petroleum Engineer or Shane Lough, Geologist at (915) 684-7441.

Sincerely,

  
Dorothea Logan
