Gentlemen:

Louis Dreyfus Natural Gas Corp. ("LDNGC") plugged the referenced well in August, 1998. The surface has been restored and is ready for inspection by a representative of the Oil Conservation Division.

At the landowner's request, and with the approval of the OCD, the casing was cut off below the surface and capped with a 13 3/8" plate. All caliche has been removed and the surface contour restored. The landowner had a specific preference for the seeds to be used in reseeded and made an agreement with LDNGC to do that work. The owner was paid for reseeded expenses.

Should you need additional information, please call me at (405) 749-5287.

Sincerely,

LOUIS DREYFUS NATURAL GAS CORP.
