(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Concho Oil & Gas Corp. respectfully requests approval to downhole commingle production from the Queen and Delaware pools in the Conoco Federal No. 1 well.

The Conoco Federal No. 1 well was originally drilled and completed by Manzano Oil Corporation in March 2000. The original completion was in the Delaware pool and production commenced in April of 2000. Manzano recompleted the well in the Queen pool in June of 2000 and did not report the recompletion to the BLM. In September of 2000 Manzano commingled the two zones without prior approval from the BLM as follows:

9-19-00 TIH w/ bailer & ret head. Rel RBP & POOH. TIH w/ production equipment and return to production.
Producing from Queen and Delaware perms.

Concho Oil & Gas Corp. wishes to file the paperwork in order to receive proper commingling approval for this well.

A copy of our application to the State is attached for your review. The production allocation is based on monthly production of each zone while they were produced separately. Delaware production data was from the month of May 2000 and Queen production data was from the month of August 2000.
