Dallas, Texas

Gentlemen:

Mr. John Runyon of this office has made an inspection of the locations for your Missouri Valley No. 3 in Unit K of Sec. 21, T-17-S, R-38-E and Sudie Manning No. 1 in Unit A of Sec. 29, T-17-S, R-38-E and has found them to be cleared in compliance with Commission rules and regulations.

We have on file, however, neither Form C-103, Report of Final Plugging, nor Form C-105, Well Record, for either of these wells, as was brought to your attention by letter dated March 28, 1958. We shall appreciate your giving the filing of these forms your early attention in order that we may close the files for these wells.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery  
Proration Manager
