

April 26, 1960

District Engineer for the Oil Conservation Commission, who is familiar with our objections. During your discussion, we would appreciate it if you would also outline your proposal for making the casing and water-shut-off tests.

Very truly yours,

R. W. Hougland
Chief Geologist

RWH/mmg

cc: Mr. E. F. Engbrecht
District Engineer
New Mexico Oil Conservation Commission
Box 2045
Hobbs, New Mexico (Registered Letter)

United States Geological Survey
504-1/2 North Canal Street
Carlsbad, New Mexico

Mr. R. E. Billman
National Potash Company
P. O. Box 731
Carlsbad, New Mexico

Mr. I. W. Lovelady
Box 3468
Odessa, Texas

4/27/60

Handwritten note: This letter is being sent to the District Engineer for the Oil Conservation Commission, who is familiar with our objections. During your discussion, we would appreciate it if you would also outline your proposal for making the casing and water-shut-off tests.
