Re: Notices to Drill
Sec. 16 T20S R32E
Lea County, N.M.

Dear Mr. Levelady:

Attached are copies of notices and letters to potash companies on your two locations in Lea County in the potash area. These notices were filed with the Oil Conservation Commission today.

The Commission will not approve either of these locations for drilling until they have had word from the potash companies involved of their approval, and since this 80 acres is within one-half mile of their "five year development" plan, you may obtain a refusal from one or both of the companies. They have ten days from the time of receipt of the notice to protest.

We shall be glad to let you know as soon as we hear anything on this.

Yours very truly,

OIL REPORTS AND GAS SERVICES

Re: Notice to Drill
Oil Well
Las County, New Mexico

Dear Mr. Lovelady:

Attached are copies of notices and letters to various companies on your two locations in Las County in the Polish area. These notices were filed with the Oil Conservation Commission today. The Commission will not approve either of these locations for drilling until they have had word from the Polish companies to-
ward of their approval, and since this 60 acres is within one-
half mile of their "five year development" plan, you may obtain a waiver from one or both of the companies. They have ten days from the time of receipt of the notice to protest.

We shall be glad to let you know as soon as we hear anything on this.

Yours very truly,

OIL REPORTS AND GAS SERVICES

(Mrs. W. L. Smith)
