APPROVED FOR 12 MONTH PERIOD

Notice of Intent - was filed with BLM.

ENDING 12/10/92

Hobbs BLM Office (393-3612) - was notified in time to witness (see note on back of chart).

Tubing pressure was 100 psig during test (no change). No problem was detected (everything OK). Chart (copy) is attached (over).

Additional Information:

- (1) Rationale - this well is a part of the Teas Yates Unit (an active Waterflood Project). Recently, a nearby WIW was converted to an active oil producer. In other words, these waterflood patterns are constantly being considered for changes.
- (2) Wellhead - is secured by high pressure valves which are visually monitored on a daily basis.
- (3) Requested Time Period - for TA status -- 1-5 years.
