

December 8, 1960

Mr. Ernest A. Hanson
P. O. Box 852
Roswell, New Mexico

Dear Mr. Hanson:

We have received your registered letter informing us of your intention to locate Atlantic State No. 1, 1980' FNL, 1980' FWL, Sec. 16, T20S, R33E, Lea County, New Mexico. This section is held under potash lease M-651 by the U.S. Borax & Chemical Corporation and is also within the boundary of the Oil-Potash area as defined by the Oil Conservation Commission Order R111-A.

We have discussed the casing program for this well with representatives of the U.S. Borax & Chemical Corporation and understand that they have authorized the program. International will therefore offer no objection to the well providing that your drilling and casing program meets with the provisions of R111-A and appropriate federal regulations.

Very truly yours,

R. W. Hougland
Chief Geologist

RWH/k

cc: E. F. Engbrecht

[illegible]

the Oil Branch area as defined by the Oil Conservation Commission. The U.S. Bureau & Chemical Corporation and is also within the boundary of the County New Mexico. This section is held under patent lease M-6719 to locate Atlantic State No. 1 1980' SWL 1980' FWL Sec. 16 T20N R33E. We have received your registered letter informing us of your intention

WILLIAM A.

We are pleased the casing program for this well with representatives of the U.S. Borax & Chemical Corporation and understand that they have authorized the program. International will therefore offer no objection to the well providing that your drilling and casing program meets with the provisions of R111-A and appropriate federal regulations.
