Attention: Mr. Joe Mefford

Dear Mr. Mefford:

Recently we received Notices of Intention to Drill pertaining to a location being 660' from the North and 1980' from the East lines of section 16, T. 20 S., R. 33 E., Lea County, New Mexico.

While we appreciate the information concerning this test, we are wondering if there is any special reason why we should be receiving the above information. We cannot recall having any acreage in this immediate area, or having sold any in the past. We do, however, have some potash permits in this area but do not see where this would effect the drilling of your test.

We are wondering if you would be kind enough to satisfy our curiosity in the above matter, and want to wish you the best of luck for a successful completion.

Very truly yours,

John H. & Mary C. Burton
