UNITED STATES BORAX

& CHEMICAL CORPORATION

Production Department

MAY 12 1960

May 12, 1960

New Mexico Oil Conservation Comm.

Hobbs, New Mexico

ATTN: Mr. Eric Engbrecht.

Gentlemen:

This letter is to confirm my telephone conversation with Mr. Engbrecht on this date pertaining to proposed casing changes in the Sinclair Oil & Gas Company #2, State Lea 6019, located in Section 16, Twp. 20 S, Rge. 33E.

United States Borax & Chemical Corporation has no objection to the operator of the subject oil test substituting tubing for the larger casing originally proposed for the well, as long as cement is circulated to the surface.

Sincerely,

A handwritten signature in cursive script, appearing to read "T. L. Gambill".

T. L. Gambill,
Senior Geologist
