13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Our intent is to **PLUG BACK/CEMENT** the Federal Silver No. 1 from a depth of; **3690' back to 3568'**. A retainer will be set at a depth of; **3578' (six feet inside the casing)** in order to insure that we have achieved 100% shut-off.

We will then **PERFORATE AND FRAC** the Upper Yates Zone from: **DEPTH: 3518' thru 3526' and from; 3530' thru 3548'**. (See: **PLUG BACK/PERFORATION DIAGRAM.**) We anticipate approximately the same type production that we now have in the Federal Silver No. 2.
