Gentlemen:

The above-referenced well has collapsed casing at approximately 2650' and an attempt has been made to repair but according to our inspection you have moved off without completing the job. Also, you did not keep us informed as to what your plans are for this well.

Therefore, unless we have heard from you within 30 days outlining your plans to complete the repair work or plug and abandon, we will set this well for a show-cause hearing on the next docket.

Very truly yours,

OIL CONSERVATION DIVISION
