RE: CONVERSION TO INJECTION PER WFX-613
West Pearl Queen Unit #109-E Sec 28, T19S, R35E
West Pearl Queen Unit #126-M Sec. 28, T19S, R35E
West Pearl Queen Unit #128-0 Sec 29, T19S, R35E
West pearl Queen Unit #139-A Sec. 32, T19S, R35E

Gentlemen:

According to our records you are injecting into all the above-referenced wells but as of this date we have not received a sundry notice setting out all the necessary information relating the actual conversion work.

Please file the following:

- 1) C-103 giving date well was converted to injection, injection interval, where packer is set, and indicate if tubing/casing annulus was pressure tested as required. I believe we have the pressure test chart for the #128 but not for the other wells. If you have the original chart you should submit them to this office.

In the future when you convert wells to injection you should always file a sundry notice, form C-103, giving all the details.

Very truly yours,

OIL CONSERVATION DIVISION
