RE: Record # 2, G-35-19S-35E

Our records indicate the above mentioned well has been inactive since January 1987. Rule 201, 202 and 203 requires that any well that has been shut in for more than one year shall be brought into compliance by one of the following options.

1. Restore the well to production.
2. Demonstrate casing integrity and obtain Temporary Abandoned approval.
3. Submit an intention to plug and abandon the well using an OCD approved plugging procedure.

You are hereby directed to respond to this request prior to March 1, 2000 or the matter will be turned over to Rand Carroll, Attorney for the Oil Conservation Division asking for a hearing as to why the well should not be plugged and abandoned.

Sincerely,

A handwritten signature in cursive script that reads "Johnny Robinson".

Johnny Robinson
Deputy Oil & Gas Inspector
