In re: Application of Phillips Petroleum Company
For Exception of the "No-Flare Order" for
Its Monument Well No. 2, Ement Pool,
Lea County

New Mexico Oil Conservation Commission - 3
Santa Fe, New Mexico

Gentlemen:

The Phillips Petroleum Company is applying for administrative approval for exception to the "No-Flare Order" for its Monument Well No. 2, Ement Pool, Lea County. The following information pertains to this well:

1. Legal description of the Monument Lease: N/2 of Sec. 12, T-19-S, R-36-E, Lea County, New Mexico.
2. Wells on the lease:
Monument No. 1 - Gas well
Monument No. 2 - Oil well
3. The attached plat shows (a) well location, (b) offset ownership, and (c) location of tank battery and gas sales lines.
4. The gas volume to be flared from this well is 27 MCF per day, based on the last established gas-oil ratio of 1690 cu.ft/bbl. and average daily production of 16 BOPD.
5. The nearest gas gathering line for this low pressure gas is Warren Petroleum Company's line located approximately one and one-half miles from the Monument tank battery.

Phillips Petroleum Company is working on arrangements for the sale of casinghead gas from this lease, but due to the time requirements for working out such an agreement, we are unable to establish when a connection will be made.

Inasmuch as we will be unable to make a gas connection before the time limit required in Order R-553, we respectfully request

In re: Application of Phillips Petroleum Company
for Exception of the "No-Flow Order" for
its Monument Well No. 2, Monument Pool,
Lea County

New Mexico Oil Conservation Commission - 2
Santa Fe, New Mexico

Dear Sirs:

The Phillips Petroleum Company is applying for administrative
approval for exception to the "No-Flow Order" for its Monument Well
No. 2, Monument Pool, Lea County. The following information pertains to
this well:

1. Legal description of the Monument Lease: N/4 of
Sec. 12, T-12-S, R-36-E, Lea County, New Mexico.
2. Wells on the lease:
Monument No. 1 - Gas well
Monument No. 2 - Oil well
3. The attached plat shows (a) well location, (b) offset
ownership, and (c) location of tank battery and gas
sales lines.
4. The gas volume to be flared from this well is 25,000
per day, based on the last established gas-oil ratio
of 1000 cu. ft./bbl. and average daily production of
10 bopd.
5. The nearest gas gathering line for this low pressure
gas is Western Petroleum Company's line located
approximately one and one-half miles from the Monument
tank battery.

Phillips Petroleum Company is working on arrangements for
the sale of gas which was from this lease, but due to the time
requirements for working out such an agreement, we are unable to
establish when a connection will be made.

Inasmuch as we will be unable to make a gas connection
before the time limit required in Order R-223, we respectfully request
