

NEW MEXICO STATE LAND OFFICE  
SANTA FE, NEW MEXICO

DEPARTMENT OF THE STATE GEOLOGIST  
NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

Wink, Texas

N. Mex., October 28, 1935

Mr. Mr. H. H. Wells

State Geologist,  
Santa Fe, New Mexico.

Dear Sir:

You are hereby notified that we intend to test the shut-off of water in Monstate

Well No. 1 in SE/4 SE/4 Sec. 13, T. 19-S, R. 36-E

N. M. P. M., Monument Oil Field Leon County,

on Oct. 30, 1935. 12-1/2 in. 50 lb. casing was { cemented } in Red Rock  
formation at a depth of 290 feet on October 27 1935

150 sacks of El Toro Regular cement were used.

The method used in placing the cement was as follows: Haliburton Plug

Fluid level will be bailed to a depth of 290 feet and left undisturbed for at least 12 hours before your inspection.

Adjacent property owners have been notified as follows: Shell Petroleum Corp.

Additional information:

Approved OCT 28 1935 19

Except as follows:

Sincerely yours,

SKELLY OIL COMPANY

Company or Operator.

State Geologist or Oil and Gas Inspector.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to address the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the project to ensure that the problem is being effectively addressed.
