Oil Conservation Commission
State of New Mexico
Santa Fe, New Mexico

Gentlemen:

On December 6, 1954, Gulf Oil Corporation made written application for an exception to the New Mexico Oil Conservation Commission's Order No. R-520 in regard to the creation of a 200-acre non-standard gas proration unit in the Eumont Gas Pool to be located in Section 23, T-19-S, R-36-E, Lea County, New Mexico. By your letter of January 10, 1955, we were advised that according to Rule 5(a), Paragraph 3, of Order No. R-520, 160 acres is the maximum acreage that could be assigned administratively to our R. R. Bell "H" Well No. 1 because of the well's location in respect to the south and east boundaries.

Therefore, Gulf Oil Corporation hereby resubmits the application for a 200-acre non-standard gas proration unit, comprising the NE/4 and the NW/4 of the SE/4, Section 23, T-19-S, R-36-E, Lea County, New Mexico, to be assigned to its R. R. Bell "H" Well No. 1 in the Eumont Gas Pool. It is respectfully requested that the Commission place this matter on its Docket for the next regular Statewide Hearing on May 18, 1955.

The following facts are offered in support of this application:

- (1) Gulf Oil Corporation is the owner and operator of the 200-acre oil and gas lease known as the R. R. Bell "H" Lease, Lea County, New Mexico, as shown on the attached plat.
- (2) Gulf Oil Corporation proposes that the above-described acreage be established as a non-standard 200-acre gas proration unit in exception to Rule 5(a) of Order No. R-520.
- (3) The R. R. Bell "H" Well No. 1, located 1980 feet from the north line and 660 feet from the east
