Re: J.L. Barr #2
Sec. 24, T-19-S, R-36-E, Lea County

Dear Sir,

In the month of September, Me-Tex transported 68 bbls. of oil to the J.L. Barr #4. This was 2-1/2 years of production. A transporter will not pick up less than a full load. To be able to sell the barrels we combined them with the J.L. Barr #4. Both leases have the same owners and royalty owners.

Please let us know if you have any questions.

Sincerely,

ME-TEX OIL & GAS, INC.

Mark Veteto, Vice President
