C-4.0432 STATEWIDE ORDERS
Non-Standard Proration Units

New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

ATTENTION: MR. JOE D. RAMEY
SECRETARY-DIRECTOR

Gentlemen:

Administrative approval is requested to combine the two nonstandard 160-acre gas proration units on Texaco's William Weir lease located in Sections 23, 25 and 26, Township 19 South, Range 37 East, into one 320-acre nonstandard gas proration unit. Currently one Eumont gas well is producing on each of these 160-acre proration units. These nonstandard units were established under Oil Conservation Commission Order Nos. R-539 and NSP-165. By combining these two 160-acre proration units, the resulting 320-acre proration unit will be dedicated to the two Eumont gas wells.

By copy of this letter, offset operators are being notified of our intention to combine these two 160-acre nonstandard units.

Yours very truly,

J. V. Gannon
District Superintendent
