work) SEE RULE 1103.

Opened well up and swabbed dry, no commercial production. Plugged and abandoned as follows:

Pulled equipment out of hole. Went in hole with CIBP and set at 3600[•]. Circulated hole with 140 barrels of abandonment fluid. Tested casing with 500# 30 minutes, OK. Spotted 7 sacks Class H cement plug on top of BP at 3565[•] to 3600[•]. Spotted 20 sacks Class H cement plug from 1116[•] to 1224[•] across top of Salt. Removed BOP. Spotted 10 sacks cement plug from 54[•] to surface. Installed dry hole marker and cleaned location. Will advise when location is ready for inspection.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
