Dear Mr. Eisner:

A check of the files for your Flanigan Nos. 1 and 2 in Section 33, T-19-S, R-36-E shows that you have not as yet submitted Form C-110 showing a casing-head gas connection. If Warren Pet. Corp. has made a connection, please file Form C-110 showing them as the authorized transporter of gas; if they have not made a connection, it will be necessary for you to make application to our Santa Fe office immediately for a No-Flare Order for these wells.

Yours very truly,

OIL CONSERVATION COMMISSION
