Additional information:

This well was completed April 19, 1936. The well produced very little oil. It was then treated with 1000 gallon Dowell XX acid and left stand for 6 hours. The well was then kicked off with gas and left flow into the pits for 1 hour. It was then turned into the tank on a 10 hour test. It made 616 barrels of pipe line oil in the 10 hours. Or an hourly average of 61.6 barrels. Gas Oil Ratio 1,070. Gas Volume 1,310,000. This test was on a 1" open choke.

DUPLICATE

Yours truly,

Permission is hereby granted to make pipe line connections requested above.
