~~Amerada Petroleum Corporation~~ _____ Well No. 6 in NE $\frac{1}{4}$ NW $\frac{1}{4}$
Company of Operator Lease
of Sec. 55, T. 19, R. 36, N. M. P. M., Monument Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

8-5/8" 32# 8-thd. New Seamless casing was setin this well at 2492' and cemented by the Halliburton Method with 500 sacks.

Casing and fittings will be tested with 1200# pump pressure and allowed to stand undisturbed for thirty min tes. If no drop in pressure results the cement will then be drilled out of casing and the same test of 1200# again applied and allowed to stand undisturbed for thirty minutes. If no drop in pressure resulted the drilling will then be resumed.

THE EFFECT OF THE INFLUENZA VIRUS ON THE RESPIRATORY TRACT
J. H. HAY, M.D., CHICAGO, ILL.
The influenza virus has been shown to be a filterable agent, and its effect on the respiratory tract has been studied in a number of experiments. The results of these experiments have shown that the virus is capable of causing a severe inflammation of the respiratory tract, and that it is capable of being transmitted from one person to another.

THE EFFECT OF THE INFLUENZA VIRUS ON THE RESPIRATORY TRACT
