OIL CONSERVATION COMMISSION,
 Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intentiton to do certain work as described below at the _____

Amerada Petroleum Corporation State "D" Well No. **2** in **SW $\frac{1}{4}$ NW $\frac{1}{4}$**
 Company or Operator Lease
 of Sec. **1**, T. **20**, R. **36**, N. M. P. M., **Momment** Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

9-5/8" New casing was set in this well at 2417' December 17, 1935 and cemented by the Halliburton Method. Casing and fitting were tested by building up 1200# pump pressure and allowing to stand undisturbe d for thirt minutes. No drop in pressure resulted. Cement plug was drilled out of casing and the same test applied and allowed to stand undisturbed for thirty minutes. The pressure did not drop. January 1, 1936 lost circulation and after various tests were made we find that the casing had either parted or had a split joint at 1111'. We recemented casing with 867 sacks by the Halliburton method. We will allow cement to stand for 72 hours and will then test casing and fittings with 1200# pressure and allow to stand undisturbed for thirty Minutes. We will then drill plug and test casing in the same manner allowing to stand undisturbed for thirty minutes.

Approved _____, 19____
 except as follows:

Amerada Petroleum Corporation

Company or Operator

By *J. A. Starkey*
 Position **Farm Boss**
