

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL			

Hobbs, New Mexico.

Place

November 29, 1935.

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the _____

Amerada Petroleum Corporation, State H Well No. 1 in the
Company or Operator Lease
SW 1/4 of SE 1/4 of Sec. 1, T. 20-S, R. 36-E, N. M. P. M.,
Monument Field, Lea County.

The dates of this work were as follows: November 28, 1935.

Notice of intention to do the work was ~~submitted~~ submitted on Form C-102 on November 26, 19 35
and approval of the proposed plan was [was not] obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

Casing and fittings were tested by applying 1200# pressure, and allowed to stand undisturbed for thirty minutes. The pressure did not drop. The cement was drilled out of casing and the same test again applied and allowed to stand undisturbed for thirty minutes. The pressure did not drop.

Witnessed by _____
Name Company Title

Subscribed and sworn to before me this 2day of Dec., 19 35

Patricia Mahoney
Notary Public

My Commission expires Oct. 24, 1939

I hereby swear or affirm that the information given above is true and correct.

Name J. A. StarkeyPosition Farm Boss.Representing Amerada Petroleum Corporation

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF CHEMISTRY

PHYSICAL CHEMISTRY

The following is a list of the topics covered in the course. The topics are arranged in order of increasing difficulty. The topics are: 1. Thermodynamics, 2. Kinetics, 3. Equilibrium, 4. Electrochemistry, 5. Spectroscopy, 6. Colloid Chemistry, 7. Surface Chemistry, 8. Polymer Chemistry, 9. Biochemistry, 10. Environmental Chemistry.

The course is designed to provide a comprehensive understanding of the physical principles underlying chemical processes. The topics are covered in a systematic manner, starting from the basic principles of thermodynamics and kinetics, and progressing to more advanced topics such as electrochemistry, spectroscopy, and colloid chemistry. The course is intended for students who are interested in the physical aspects of chemistry.

The course is taught by Professor [Name], who is an expert in the field of physical chemistry. The course is held in the Department of Chemistry, University of Chicago.

The course is open to all students who are interested in the physical aspects of chemistry. The course is held in the Department of Chemistry, University of Chicago.
