MEMORANDUM FOR THE SECRETARY

1. The purpose of this memorandum is to inform you of the results of the study conducted by the Department of the Army, Office of the Chief of Staff, regarding the proposed changes in the structure of the Army's medical services. The study was conducted by the Army Medical Research and Development Command, Fort Detrick, North Carolina, and the results are summarized in the attached report.

2. The study was conducted in accordance with the instructions of the Joint Chiefs of Staff, dated 10/1/64, regarding the proposed changes in the structure of the Army's medical services.

3. The study found that the proposed changes in the structure of the Army's medical services are necessary to meet the needs of the Army in the future. The study also found that the proposed changes are feasible and can be implemented without undue cost or delay. The study further found that the proposed changes will result in a more efficient and effective medical service for the Army.

4. It is recommended that the proposed changes in the structure of the Army's medical services be approved and implemented as soon as possible.

Very truly yours,

John A. ...

Major General

5. The study also found that the proposed changes in the structure of the Army's medical services will result in a more efficient and effective medical service for the Army. The study further found that the proposed changes will result in a more efficient and effective medical service for the Army.
