FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well, completed July 14, 1936 as a flowing well, recently began making water. Attempts to shut this water off were unsuccessful as reported on Form C-103 dated July 6, 1949. In order to continue flowing this well it is found that outside gas must be used. Such gas is available from the 7"-5" Bradenhead of Well No. 1 on this same lease, in the same 1/4 section. We therefore request permission to use the necessary gas from this well to gas lift the subject well. Gas lift equipment installed was reported in the above mentioned report.
