Mr. W. A. Pruett
Superior Oil Company
Gulf Building
Houston, Texas

Dear Sir:

I am returning herewith an approved copy of your
bradenhead gas program for your State Well No. 2-A in the
NW 1/4 of Sec. 2, T. 20 S., R. 36 E., in the Monument Field,
Lea County, New Mexico.

You will notice I changed the amount of cement from
25 sacks to 45 sacks. I took this matter up with Mr. Nugent
and we figured the 45 sacks of cement would fill back within
50 feet of the base of the gas.

Very truly yours,

FJV:t

Enc.

F. J. Vesely,
State Oil & Gas Inspector.
