NOTICE OF INTENTION TO ABANDON WELL.....			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

February 1, 1953

Well No. 1 is located 1002.54 ft. from N line and 1654.4 ft. from E line of sec. 3

N. 1/4 Sec. 3 (1/4 Sec. and Sec. No.) 203 (Twp.) 30E (Range) N. 1/4 (Meridian)  
Monument (Field) Lee (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this test with Rotary tools to a total depth of approximately 3900'. We will set and cement 10-3/4" 32# casing at a depth of about 300 feet and cement same with sufficient cement to circulate back into collar. We will cut an 8-3/4" hole below surface casing to a depth of approximately 3800 feet and cement casing with a two-stage job, using 300 sacks on the bottom job and 250 sacks through two-stage tool at 1475 feet.

We propose to diamond core the hole from shoe of pay string to total depth.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company H. S. Moss
