NOTICE OF INTENTION TO DRILL	SUBSEQUENT REPORT OF WATER SHUT-OFF
NOTICE OF INTENTION TO CHANGE PLANS	SUBSEQUENT REPORT OF SHOOTING OR ACIDIZING
NOTICE OF INTENTION TO TEST WATER SHUT-OFF	SUBSEQUENT REPORT OF ALTERING CASING
NOTICE OF INTENTION TO RE-DRILL OR REPAIR WELL	SUBSEQUENT REPORT OF RE-DRILLING OR REPAIR
NOTICE OF INTENTION TO SHOOT OR ACIDIZE	SUBSEQUENT REPORT OF ABANDONMENT
NOTICE OF INTENTION TO PULL OR ALTER CASING	SUPPLEMENTARY WELL HISTORY
NOTICE OF INTENTION TO ABANDON WELL	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

San Antonio, B-4, No. 1

Hobbs, New Mexico July 27, 1955

Well No. 2 is located 660 ft. from N line and 660 ft. from E line of sec. 4  
N 1/4 Section 4 208 342 N.M.P.M.  
 (Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
New Mexico  
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is our intention to drill a well at the above location to a total depth of approximately 4300' with rotary tools in an attempt to obtain commercial production in the Queen. All casing points will be cemented in accordance with approved methods of the U. S. Geological Survey and any other special requirements will be complied with.

It is planned to use the following casing pattern: 8 5/8" casing to be set at 1,450' and cemented with approximately 1,450 sacks cement, cement to be circulated; 5 1/2" casing to be set at total depth and cemented with 1,455 sacks cement, or as determined by survey, and to be perforated opposite the pay zone. Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Title District Superintendent

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry must be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. These include direct observation, interviews with key personnel, and the use of specialized software tools. Each method is described in detail, highlighting its strengths and limitations.

The third section presents the results of the study. It shows that there is a significant correlation between the variables being studied. The data indicates that the proposed changes will lead to a more efficient and cost-effective process.

The following table provides a summary of the key findings from the study. It compares the current state of affairs with the proposed improvements. The data shows a clear benefit to the proposed changes, particularly in terms of time and cost savings.

Category	Current State	Proposed State
Time	120 minutes	90 minutes
Cost	\$1500	\$1000
Accuracy	95%	98%

The final section of the document discusses the implications of the study. It suggests that the findings can be applied to other similar situations, providing a valuable reference for future research. The author also acknowledges the limitations of the study and suggests areas for further investigation.

In conclusion, the study has shown that the proposed changes are feasible and will result in significant improvements. It is recommended that the changes be implemented as soon as possible to maximize the benefits.

The author would like to thank the following individuals for their assistance and support during the course of the study:

- John Doe, Project Manager
- Jane Smith, Data Analyst
- Bob Johnson, Finance Director

The document is intended for internal use only and should not be distributed outside the organization without prior approval.
