Re: Plugging on Alves #1
Sec. 6-20-36

Gentlemen:

Mr. M. L. Armstrong, Oil and Gas Inspector for the Commission, has inspected the location for your Alves #1 in Unit P of Section 6-20-36, and he finds this in order with the exception of the fact that the "dead man hooks" have not been cut. We shall appreciate it if you will check into this matter and let us know when this work has been done, so that another inspection can be made and the file closed on this location.

Yours very truly,

OIL CONSERVATION COMMISSION
