17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

In connection with the Reed Sanderson Unit Waterflood, it is
proposed to convert the subject well to water injection by the following procedure:

1. Cleanout any fill to 3996', drill bridge plug at 3996' and cleanout to 4035'.
2. Run cement-lined tubing w/packer set at approximately 3700'.
3. Connect up well and commence water injection down the tubing.

NMCCC Order R-3132 was issued on September 1, 1968, authorizing
institution of the Reed Sanderson Unit Waterflood.

A subsequent report will be submitted upon completion of this
work.

18. I hereby certify that the foregoing is true and correct
