

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELL

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-offs, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL		Run 13 3/8" casing

REPORT ON THE PROGRESS OF THE WORK

During the year 1900

the following work has been accomplished:

The first part of the work has been devoted to the study of the general principles of the theory of the functions of a complex variable. The second part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The third part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The fourth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain. The fifth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The sixth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The seventh part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The eighth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The ninth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain. The tenth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The eleventh part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

RESEARCH ACCORDING TO THE PLAN AND RESULTS OBTAINED

The results obtained in the course of the research are as follows: The first part of the work has been devoted to the study of the general principles of the theory of the functions of a complex variable.

1900

The second part of the work has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain. The third part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.

The fourth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain. The fifth part has been devoted to the study of the properties of the functions of a complex variable which are analytic in a certain domain.
