NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

Dual Completion

REQUEST FOR (OIL) - (GAS) ALLOWABLE

This form shall be submitted by the operator before an initial allowable will be assigned to any completed oil or gas well. Form C-104 is to be submitted in QUADRUPLICATE to the same District Office to which Form C-101 was sent. The allowable will be assigned effective 7:00 A.M. on date of completion or recompletion, provided this form is filed during calendar month of completion or recompletion. The completion date shall be that date in the case of an oil well when oil is delivered into the stock tanks. Gas must be reported on 15.025 psia at 60° Fahrenheit.

mob/mob

1. The first part of the document
 discusses the importance of
 maintaining accurate records
 of all transactions. It
 emphasizes that this is
 essential for the company's
 financial health and for
 providing reliable information
 to stakeholders.

2. The second part of the document
 outlines the specific procedures
 for recording transactions. It
 details the steps that must
 be followed to ensure that
 all data is entered correctly
 and that the system remains
 secure. This includes
 instructions on how to handle
 errors and how to verify the
 accuracy of the data.

3. The third part of the document
 discusses the importance of
 regular audits. It explains
 that audits are necessary to
 ensure that the system is
 working properly and that
 all data is accurate. It
 also provides information on
 how to conduct an audit and
 what to look for.

4. The fourth part of the document
 discusses the importance of
 training. It explains that
 all employees who use the
 system must be properly
 trained. It provides information
 on how to develop a training
 program and how to ensure
 that all employees are
 up-to-date on the latest
 procedures.

5. The fifth part of the document
 discusses the importance of
 security. It explains that the
 system must be protected from
 unauthorized access. It
 provides information on how
 to implement security measures
 and how to monitor the system
 for potential threats.

6. The sixth part of the document
 discusses the importance of
 documentation. It explains
 that all procedures must be
 documented in a clear and
 concise manner. It provides
 information on how to develop
 a documentation system and
 how to ensure that all
 documentation is up-to-date.

7. The seventh part of the document
 discusses the importance of
 communication. It explains
 that all employees must be
 kept informed of any changes
 to the system. It provides
 information on how to develop
 a communication plan and
 how to ensure that all
 employees are aware of the
 latest information.

8. The eighth part of the document
 discusses the importance of
 evaluation. It explains that
 the system must be regularly
 evaluated to ensure that it
 is meeting the company's
 needs. It provides information
 on how to develop an
 evaluation plan and how to
 ensure that all evaluation
 results are used to improve
 the system.

9. The ninth part of the document
 discusses the importance of
 backup. It explains that all
 data must be backed up
 regularly. It provides
 information on how to develop
 a backup plan and how to
 ensure that all data is
 backed up correctly.

10. The tenth part of the document
 discusses the importance of
 disaster recovery. It explains
 that the company must have
 a plan in place to recover
 from a disaster. It provides
 information on how to develop
 a disaster recovery plan and
 how to ensure that all
 employees are aware of the
 plan.
