Oil and Gas Leasing Division

UNITED STATES DEPARTMENT OF THE INTERIOR GEOLOGICAL SURVEY

BOX 997
ROSWELL, NEW MEXICO

March 2, 1938

Rumble 011 and Refining Company P. O. Box 1600 Midland, Texas Re: Las Cruces 048741(a)

Receipt is acknowledged of your "Notice of Intention to Drill" dated February 28, 1938 covering Fopeano well No. 4 on the subject land in SE 1/4, Sec. 26 T. 205 R. 368 You outline details of proposed work as follows:

"CASING PROGRAM:

Size of Hole	Size of Casing	Weight Per Ft.	New or Second-Hand	Depth	Landed or Comented	Sacks Cement
13-3/4"	10-3/4*	40.5#	New	2501	Cemented	100
9-7/8=	7-5/8=	26.40#	•	15001	•	400
6-3/4"	5-1/2*	17# "	*	38501	•	100**

Your proposed work is hereby approved subject to compliance with the provisions of Section 2 of the "Oil and Gas Operating Regulations", revised November 1, 1936, copy of which will be sent you on request.

See attached sheet for general and special conditions of approval.

Records and written notices relating to these well operations must be submitted to this office in accordance with Section 5 of said operating regulations. Any proposed change of detail of the work outlined above must be submitted to this office on Form 9-331a in triplicate and approval obtained before such work is commenced.

Very truly yours

ERNEST A. HANSON,

Supervisor, Oil and Gas Operations.

EAH:LL

APPROVAL TO DRILL is given with the understanding that the following general and special requirements be strictly complied with:

GENERAL

- 1. All water to be confined to its original horizon by approved methods and test made for water shut-off before drilling shead.
- 2. All showings of oil or gas to be tested for their commercial possibilities in a dry hole before drilling ahead. Each showing to be properly protected to prevent waste.
- 3. To prevent waste of, or damage to, and to provide the U.S. Geological Survey with carefully taken samples of other minerals drilled through, i. e., coal, salt, potash beds, etc.
- 4. The permittee shall permanently mark all rigs or wells in a conspicuous place with his name or the name of the actual operator and the number and description of the well, and shall take all necessary precautions to preserve these markings.
- 5. Lessee's monthly report, in triplicate on form 9-329, must be filled out each calendar month and forwarded to the Roswell office not later than the 6th day of the following month.
- 6. Log, in triplicate on standard government form 9-330, must be submitted within 10 days after completion of drilling.

SPECIAL

- 1. Any change of drilling plan, or the conditions of approval, must have the written approval of the District Engineer before the change is made.
- 2. Notify the U. S. Geological Survey office, P. O. Box 997, Roswell, New Mexico, on form 9-33la, of mudding, cementing, drill-stem tests, perforating, casing alterations, packer settings, shooting or acid treatment, gas lift installation, deepening, plugging-back, and repairs in advance of proposed work, and submit results of the same on this report form within 10 days of completion.
- 3. Production string must be set at top of pay, and completion made with a reasonable gas/oil ratio.
- 4. The 5-1/2" easing must be comented with not less than 200 sacks.
