| SIZE HOLE | CASING | WEIGHT | WELL OR IN | DEPTH | HOW SET  | SACKS CEMENT |
|-----------|--------|--------|------------|-------|----------|--------------|

We plan to drill this well to an approximate depth of 4000' to test the Panaca.  
 Rotary type drilling rig will be used, and well will be drilled with gas.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
