Gentlemen:

Mr. W. A. Gressett, Oil and Gas Inspector for the Commission, has made an inspection of the location for your State GE No. 1 in Unit E of Section 29, T-20-S, R-36-E and has found that the rat hole has not been filled and the dead men wires have not been cut.

Please advise this office when this has been done so that a final inspection may be made and your Report of Final Plugging approved without further delay.

Yours very truly,
