

In addition to conforming with said Rule 5 (b), forms C-104 and C-110, along with the required plat, have been filed with the NYOCC in compliance with Rule 11 of Order No. R-520. A plat is attached hereto showing the proposed unit, the location of the well, and the offset ownership.

It is further requested that NYOCC Order No. R-555, dated December 16, 1954, and granting, among other things, administrative approval for a non-standard gas proration unit to be assigned to the Seale (Federal) No. 1 well consisting of the SW/4 of Section 34, T-20-S, R-36-E, Eumont Pool, Lea County, New Mexico, be rescinded. The Seale (Federal) No. 1 well was not fully completed in the gas producing zone as proposed and the non-standard gas proration unit approved for it in Order No. R-555 consists of the same acreage as the unit herein applied for to be assigned to the Seale (Federal) No. 2 well.

Respectfully submitted,

THE ATLANTIC REFINING COMPANY
