FEDERAL CONSERVATION
NO. 1, "BONN GOMBERG"

U.S. CONSERVATION COMMISSION

RECEIVED MAY 1941.

This is to advise you that in view of the fact that the gas-oil ratio as reported on Form C-116 indicates that this well is no longer capable of producing oil, and further indicates that the well is capable of producing at the rate of 130 B.C.P., it will be necessary for you to apply to the Bank for a title for a non-standard gas production unit. Upon arrival of this unit the office will then be in a position to sell gas to the Bank for a non-standard gas production unit. Upon this well is gas alluvial.

Our letter of January 1st dated August 22, 1953 in regard to your
gas-oil ratio is herewith forwarded.
