Seale Federal Lease  
Well #4, Unit N, Sec. 34,  
T-34, R-36-E, Lea County,  
New Mexico, Eumont Field.

Dear Sir:

We are submitting herewith the original and two copies of forms C-116, C-122, and C-122-C to support our request for reclassification from an oil well to a gas well status. This well is presently carried on the proration schedule as an oil well without an allowable.

We would appreciate your attention to this matter and letting us know when reclassification is made.

It will be noted that the test was run in increasing sequence and a point alignment could not be obtained. It will also be noted that this test has a slope greater than 1.0, therefore, a slope of 1.0 was projected through the highest rate to obtain a potential.

Yours very truly,  
The Atlantic Refining Company

By   
N. A. Carr  
District Superintendent
