FORM C-101

## NEW MICO OIL CONSERVATION COM ION

Santa Fe, New Mexico

## NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional intructions in Rules and Regulations of the Commission.

LOCATE WELL CORRECTLY			V	We propose to drill well with drilling equipment as follows:								
Rota	ry tool	*					2	- •				

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows:

We propose to use the following strings of casing and to land or cement them as indicated:

IAN 24 1938

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
17-1/4 <b>"</b> 9-7/8	13-3/8 <b>*</b> 7-5/8	27.8 26.4	New New	20 ' 1250	Cemented Cemented	60 450
6-3/4	5-1/2	17	Yew	3700	Comented	130

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about <u>3700</u> feet. Additional information:
