June 21, 1956

New Mexico Oil Conservation Commission  
Box 871  
Santa Fe, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

By form letter dated April 5, 1956, The Texas Company was notified by Mr. R. F. Montgomery that in order to comply with Order R-553 it must obtain a connection or secure a no-flare order from the Commission for its Z. A. McMillan "B" Well No. 2. This action must be taken before June 26, 1956. As a result of this notification The Texas Company does hereby make application for a no-flare order for their Z. A. McMillan "B" Well No. 2 in compliance with Order R-553.

The Z. A. McMillan "B" Lease contains 160 acres and is comprised of the southeast quarter of Section 4, T-19-S, R-37-E, Lea County, New Mexico. The attached plat was prepared to show the location of the subject well, offset ownership, and the location of the tank battery. The Texas Company is in the process of negotiating a contract with Phillips Petroleum Company to take the approximately 63.4 MCF of casinghead gas per day now being produced and flared by the subject top allowable well, which produces with a gas-oil ratio of 1720 cubic feet per barrel. However, due to difficulties being experienced by the gatherer in installing its gathering system it is doubtful that a connection for the Z. A. McMillan "B" Lease can be obtained in less than six months. Therefore, a temporary no-flare order for a period of at least six months commencing June 26, 1956, is respectfully requested for Z. A. McMillan "B" Well No. 2.

Yours very truly,

*H. N. Wade*

Before me, the undersigned authority, on this the 21st day of June, personally appeared H. N. Wade, known to me to be the person whose name is subscribed to this instrument, who after being by me

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

#### 2. Methodology

The methodology section describes the research design and the methods used to collect and analyze data. It includes a discussion of the sample size, the selection of participants, and the procedures used for data collection and analysis.

The results section presents the findings of the study. It includes a discussion of the main results and their implications. The results are presented in a clear and concise manner, using tables and figures where appropriate. The discussion also includes a comparison of the results with previous research and a discussion of the limitations of the study.

The conclusion section summarizes the main findings of the study and provides a final statement on the importance of the research. It also includes a discussion of the implications of the findings for future research.

The references section lists the sources of information used in the study. It includes a list of books, articles, and other sources that have been consulted.

The appendix section contains supplementary material that is not included in the main body of the report. It includes a list of tables and figures, a list of abbreviations, and a list of symbols.
