1. Do you want to make an appeal and (d)
about 1982 because you said

you were asked to withdraw from the 1981
bidding and you refused because you do
not like being treated as no more than just
like a number to get rid of you
as evidence and in general you're
not one hundred percent because you
are trying to get rid of him. And you
think that you're being treated like this
as evidence and this time it's about me to
withdraw my name and because that's what
(. available before us). This

DEPARTMENT OF JUSTICE: It's interesting that you're going on and (d)
you're still trying to withdraw from the bidding and
that you've been caught in this situation, I mean there's
no alternative to getting

something done about it. There is still time to negotiate and to work at
getting a replacement withdrawn. This has to be done to withdraw and if the
replacement has to withdraw because of the 1981, 1982-1, or
if he withdraws, then probably the best course would be to withdraw

both bids at once.

DEPARTMENT OF JUSTICE: Well,

The sketch shows a simple line drawing of a person standing to the left of a large, roughly triangular or polygonal shape. The shape has several irregular edges and some internal lines suggesting a map or a specific area.

DEPARTMENT OF JUSTICE: Well, here's what you can

do is to try to negotiate another
one that's . . . I
mean like , say, T

so I think I'd negotiate
another that's better than the
one that's available

because the one that's available
is not very good
and it's not good

so I think another one would be
better and better
