Attention: Mr. Michael E. Stogner
Chief Hearing Officer/Engineer

RE: APPLICATION FOR NON-STANDARD GAS PRORATION UNIT
New Mexico "C" State NCT-6 Well No. 1
E/2 Sec. 6, T19S, R37E
Lea County, New Mexico

Dear Mr. Stogner:

Please cancel the referenced application for the 280-acre Eumont Gas proration unit. The oil production has dropped in the recently drilled Well No. 2 giving it a GOR greater than 100,000. This will result in Well No.s 1 and 2 being classified as gas wells sharing the same 320-acre proration unit.

A copy of Form C-116 for Well No. 2 is attached for your information.

Sincerely,

Larry D. Ridenour
Engineer's Assistant
