Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission. Indicate nature of report by checking below.

entilemen: collowing is a report on the work done and the results obtained under the heading noted above at the company or Operator Elease Well No. #1 in the Company or Operator The dates of this work were as follows: Comment Company or Operator Field, Lease 7, T. 19, R. 37, N. M. P. M., Country. Control Sept 4th 1937 Tested Sept 6th 1937. Otice of intention to do the work was [wa////] submitted on Form C-102 on Sept 6th 1937. Otice of intention to do the work was [wa////] obtained. (Cross out incorrect words.)
