RE:
PROPOSED NSP 232
PROPOSED NSL

Dear Mr. Macey:

I have examined the application dated 1/12/56
for the Gulf F. W. Kutter "E" #1-K 9-19-37
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

I feel that there is doubt as to the gas productivity of the Queen in this
area-This well is 6500' SW of the Texas Co. McMillan #1, and is on, or close
to, the trend of oil production in this area. The Gulf well should make oil,
however, there has not been sufficient testing- it should be checked after
the well has produced for a time. CR

Undoubtedly a portion of the acreage is oil productive- RFM

Yours very truly,

OIL CONSERVATION COMMISSION
