12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Conoco ran a Casing Integrity Test on this well on 7/16/99 in order to request Temporary Abandonment status; however, the casing valve was frozen shut, making the test invalid. An NMOCDD witness came out and inspected the repairs and noted that the valve has appropriately been replaced and the test is now valid. OCD is in possession of the original chart. (see attached notations made by witness on a copy of the original) This well is ready to be Temporarily Abandoned upon approval.

(Attached are copies of previous filings regarding this well that were never returned approved by the OCD.)

This Approval of Temporary  
Abandonment Expires 10-29-2004

12. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
